

DIVAKAR R. UPADHYAY

SR. SOFTWARE ENGINEER

PHONE: +886 987291325 **WHATSAPP/LINE ID:** 9372129286

EMAIL: UPADHYAYDIVAKAR1991@GMAIL.COM

ADDRESS: NEW TAIPEI CITY, NANGANG EXHIBITION MRT

OBJECTIVE

To make use of my interpersonal skills to achieve goals of a company that focuses on customer satisfaction and customer experience.

SKILLS & ABILITIES

Skills of long 8+ year of experience in software development using Microsoft technology .Net Framework with the ability of working in different architectural patterns like layered architecture, repository and MVC(Model-View-Controller) architecture along with relational database skills with query writing skills and tracing queries to check and observe the flow of the systems. Expertise in working live environment with code management and code release process like CI/CD.

EXPERIENCE

03/2022-Current

Senior software engineer

Fengxingtian Co. Ltd (<https://skywind.com.tw/>) (Payroll Company)

Acer Group (<https://www.acergroup.com/ag/en/TW/content/home>)

Role & responsibility:

- Handle the daily operations of the Acer in-house contact service system, ensuring smooth functionality and user support.
- Actively participate in daily meetings with team members and management to discuss ongoing activities, challenges, and updates.
- Engage in requirement discussions to prioritize tasks based on user needs and organizational goals, ensuring timely delivery and alignment with user expectations.
- Develop new modules for the system and oversee their release into IT and UAT environments for comprehensive ITQA and UAT QA testing.
- Provide ongoing support for existing modules, addressing issues promptly to maintain a seamless user experience.
- **The major work done by me is like third party service integrations like TNT(Fedex) with EDI supporting formats, i18n translation, DHL Payment Gateway integration along with report creation in ssrs and task creation in ssis.**

Technologies and tools used:

Architecture used: Micro Service, Monolithic

Programming used: C#, Vb.Net, Angular Js, Angular, Web form, C# MVC, Rest API, Soap API, Entity Framework, LINQ

Tools Used: Visual Studio 2019 and Visual Studio 2022, Visual Code, MSSQL, Postman, Microsoft Team for chat, Redmine, Azure DevOps, Zoho online portal, Outlook

Client: In-house project for handling laptop services and acer service center including acer partners

04/2021 To 11/2021

Senior software engineer

HealthAssure Pvt Ltd (<https://www.healthassure.in/>)

Role and responsibilities:

- Led a team of 5+ developers in the successful implementation and deployment of the Health Assure product system.
- Gathered requirements and wrote code using Microsoft .NET technology, specifically C# and MVC.
- **Integrated third-party libraries into the Health Assure product system, including Apollo Pharmacy and Doc 24x7.**
- **Created new services and supported existing ones for mobile app development (iOS and Android), assisting mobile developers in understanding service features.**
- Collaborated with team members to publish code releases on the server, ensuring smooth integration of all contributions.
- Conducted knowledge transfer sessions for new team leaders and managers to ensure seamless onboarding.
- Liaised with third-party teams for smooth API integration for both web and mobile applications related to the Health Assure product system.
- Oversaw requirement understanding and tracked the progress of developers' work, providing updates to management on team performance.

Technologies and tools used:

Architecture used: Monolithic architecture

Programming used: C# MVC, .Net core MVC, Rest API, Soap API, Entity Framework, LINQ, FTP and direct publish on server

Tools used: Visual Studio 2017, MSSQL, Postman

Third party libraries used: Apollo Pharmacy, Doc 24x7

Client: Corporate companies and normal public

09/2018 To 03/2021

Senior software engineer

Tecogis Software Solution (<https://www.tecogis.com/>)

Role and responsibilities:

- Developed code and designed software components in alignment with system requirements.
- Worked closely with product owners to identify requirements and prioritize tasks effectively.
- Analyzed user needs to recommend improvements for existing software solutions.
- Maintained databases by writing efficient SQL queries and stored procedures.
- Provided support to end users by resolving issues related to deployed applications.
- Conducted debugging tasks to identify the root causes of errors and malfunctions in existing systems.
- Integrated third-party libraries into applications to enhance functionality.
- Created executable files for data synchronization on the global IGI server.
- Loaded Crystal Reports using a generic method call for streamlined reporting.
- **Implemented e-signature and camera library functionalities for the IGI grading page in the IGI laboratory project.**

Technologies and tools used:

Architecture used: Monolithic architecture

Programming used: VB.Net, C# MVC, .Net core MVC, Web Form, Rest API, Soap API, Entity Framework, LINQ

Tools used: Visual Studio 2015, MSSQL, Postman, **Visual Source Safe**, FileZilla

Third party libraries used: Rapaport (<https://www.diamonds.net/>), DefExpo API for Exhibitor registration, Diamond Property Explorer and displaying in the Bar graph, Global Data Sync API for IGI

Client:

Diamond retailer:

<http://www.ketanbrothers.com/>

<https://mbmehta.in/>

Diamond laboratory:

IGI: <https://www.igi.org/>

GIA: <https://www.gia.edu/>

Event Management Client:

<https://defexpo.gov.in/>

<https://itme2022.india-itme.com/>

Aero India

09/2017 To 09/2018

Jr. software engineer

Fulcro world(IBM) Digital Solution (<https://www.ibsfulcro.com/>)

Role and responsibilities:

- Contributed to a major financial project for a leading financial services provider in India Bajaj FinServ.
- Developed a web application using Umbraco CMS with ASP.NET MVC and C#.
- Managed initial code release and deployment through FTP, later transitioning to AWS Elastic Beanstalk for improved deployment efficiency.
- **Conducted data cleaning and uploading to the server using SQL queries and Excel.**
- Integrated Salesforce APIs to save Bajaj FinServ data in the Salesforce database for analytics and tracking UTM resources.
- **Implemented gift card services in the Bajaj Electrical e-commerce portal, facilitating gift card code generation, email delivery to consumers, redemption, and payment management.**
- Provided support and engagement with clients to address new and existing requirements based on business needs.
- Worked on the **Tata Docomo app using Vue.js** to enhance user experience and functionality.

Technologies and tools used:

Architecture used: Monolithic architecture

Programming used: C# MVC, Rest API, Soap API, Entity Framework, LINQ, XSLT, vue.js.

Tools used: Umbraco, Visual Studio, MSSQL, Postman

Third party services used: Gift Card services, Salesforce services

Client:

<https://www.bajajfinserv.in/>

<https://www.bajajelectricals.com/>

Tata DoCoMo

02/2015 To 05/2017

Jr. software engineer

Dotcom Service India (<https://www.worldindia.com/>)

Role and responsibilities:

- Designed and implemented various web-based applications for clients, including a time tracking system, the Film City project, and Bajaj Banani Group, among others.
- Created new projects and set up the architecture in a monolithic system, incorporating data access, business, and presentation layers.
- Conducted manual testing post-release to ensure functionality, creating test scenarios in Excel based on the discussed business requirements with team members and clients.
- Managed code deployment to the server using FileZilla.

Technologies and tools used:

Architecture used: Monolithic architecture, Repository Pattern with View Model

Programming used: Web form using Ado.Net, C# MVC, Rest API, Soap API, Entity Framework, LINQ

Tools used: Visual Studio, MSSQL, Postman

Third party services used: Payment Gateway Integration like PayU money, Stripe, HDFC, Atom

Client: mmronline, Bollywood film city, Time tracking system for bureau veritas, dynaroom

EDUCATION

08/2014

Master in computer science

Mumbai MH

E. S. Andrades College of Science affiliated by University of Mumbai

07/2011

Bachelor in computer science

Mumbai MH

Bhaskar Waman Thakur College of Science affiliated by University of Mumbai

COMMUNICATION

Strong written and verbal communication skills, including the ability to provide constructive feedback and collaborate effectively with development, release and management team.

LEADERSHIP

Ability to manage multiple projects simultaneously and meet tight deadlines, while maintaining the highest standards of quality.

Additionally, my extensive experience in the software field, particularly with live projects, enables me to learn new technologies quickly and adapt easily to new teams. I can pick up new skills independently with minimal effort when necessary.

Thank you for considering my application. I look forward to the opportunity to discuss my qualifications further.
